1 WEEK OR 2-WEEK PROGRAM AVAILABLE

GOSTILJE / ZLATIBOR

English Summers is a language and activity summer camp that has been running in Serbia for over 15 years. The program includes daily language classes, a full activity program and evening events designed to test language knowledge, team building skills and problem-solving aptitude.

Zlatibor is the second highest mountain located in the west of Serbia. The hotel "Gostilje" is ideally located in a valley near Zlatibor and offers beautiful scenery, fresh air and cool nights – even in the height of summer, lots of room to run around in open space with complete safety and security away from busy roads and towns. There is an outdoor swimming pool and grass pitch for our sports activities.

The camp offers 3 hours per day of language lessons where the focus is on speaking and comprehension and so students can practice what they've learned throughout their year at school. Teachers are native speakers, and the Syllabus is designed to be both challenging and fun with lots of digital media material and practical games in class.

Activities include arts and crafts – in which the students can let their creative talents shine, and a sports and activity program. In the arts program students can work with clay, t-shirt design, 3D MDF crafts and lots more. All materials are provided and we have seen some amazing work come out during the week. They can also elect to play sports, and we offer an opportunity to learn sports from around the world (Cricket, American football, rugby, hockey, archery and more) alongside the ever-popular football, volleyball and basketball.

Our evening program, like the rest of our schedule is separated by age and level. Students have the choice of a big event (usually an escape room, murder mystery, quiz or themed night), or smaller events such as boardgames, films or sports.

Activities are competitive and we offer prizes for winning games and a variety of other achievements that make the camp come to life and become more than just a summer camp. Students make friends from around the region and learn new skills.

They spend time outdoors in the fresh air and countryside and we make it our mission to minimise students' obsessions with their phones and highlight the possibilities of what may follow if they can talk to the world in English.

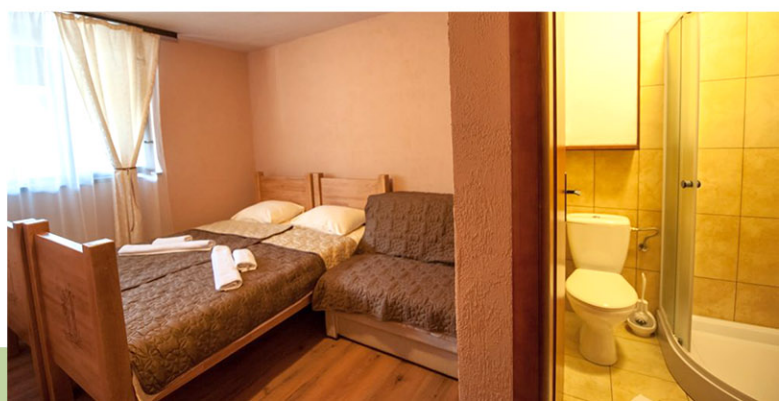

THE PROGRAM INCLUDES:

- 8 days / 7 nights full board lodging
- Accommodation in triple/quad bed rooms
- English language lessons (3 hours a day)
- Fully provisioned sports activities and art workshops
- Fun activities and educational games
- A half day trip

THE PROGRAM PRICE DOES NOT INCLUDE:
